ISA² Programme & ELISE action

European Interoperability Programme

cross-border and cross-sector Interoperability solutions

for public administrations, businesses and citizens

54 different actions tackling **interoperability** from different angles

ELISE action is the **only** action focusing on the **location dimension**

European Location Interoperability Solutions for e-Government

Enabling Digital Government through Geospatial and Location Intelligence

Main activities:

We need your support!

1. Knowledge Transfer & consolidation

- Series of webinars
- Location interoperability boardgame
- INSPIRE synonyms

- Emerging topics: Next: *GeoAI 09/07*
- ELISE consolidation: *Location privacy - end of July (TBC)*

2. Future of SDIs Studies

- Study 1 - Longitudinal analysis of ***SDIs supporting access to environmental data***
- Study 2 - ***Use and exchange of cross-border data***

ELISE Knowledge Transfer activities

Purpose:

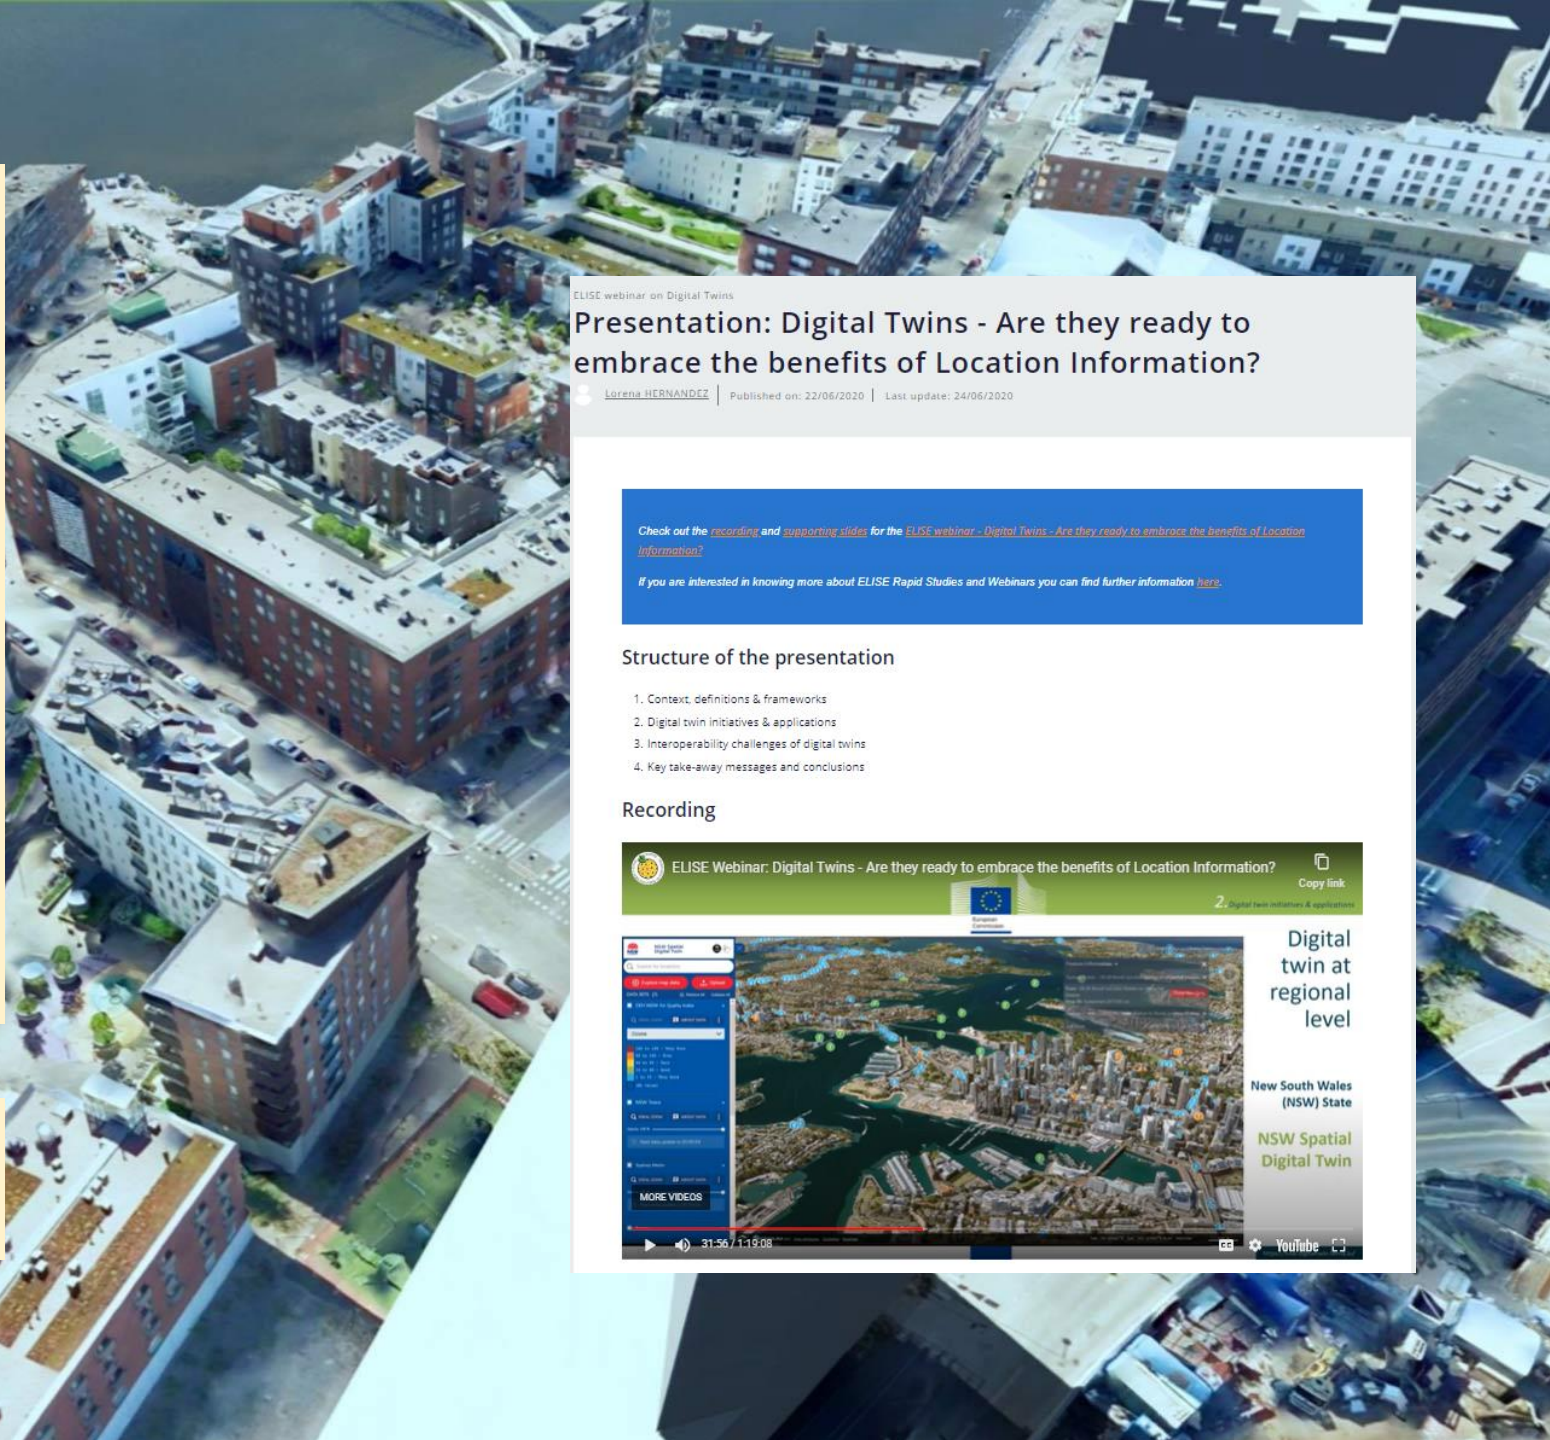

- engage in an agile way
- with topics of relevance to the Digital Transformation
- by harnessing the use of spatial data and technology.

ELISE webinar on Digital Twins

Presentation: Digital Twins - Are they ready to embrace the benefits of Location Information?

by [Lorena HERNANDEZ](#) | Published on: 22/06/2020 | Last update: 24/06/2020

Check out the [recording](#) and [supporting slides](#) for the ELISE webinar - *Digital Twins - Are they ready to embrace the benefits of Location Information?*

If you are interested in knowing more about ELISE Rapid Studies and Webinars you can find further information [here](#).

Structure of the presentation

1. Context, definitions & frameworks
2. Digital twin initiatives & applications
3. Interoperability challenges of digital twins
4. Key take-away messages and conclusions

Recording

A screenshot of a YouTube video player. The video title is "ELISE Webinar: Digital Twins - Are they ready to embrace the benefits of Location Information?". The video is at the 31:56 mark of a 1:19:08 duration. The video content shows a presentation slide titled "Digital twin at regional level" with the subtitle "New South Wales (NSW) State NSW Spatial Digital Twin". The slide features a 3D digital twin model of a city with various data points overlaid on a map. The video player interface includes a search bar, a list of related videos, and a "MORE VIDEOS" button.

Next webinar

*Geospatial Data and
Artificial Intelligence –
a deep dive into GeoAI*

09/07/2020 from 14h to 15h

The European Location Interoperability Solutions for e-Government (ELISE) Action aims at Enabling Digital Government through Geospatial Data and Location Intelligence. It is a package of legal/policy, organisational, semantic and technical interoperability solutions that aim to facilitate more efficient and effective digital cross-border or cross-sector interaction and data re-use.
