1. Introduction to e-Calls PROSPECT

e-Calls PROSPECT is the electronic system developed by EuropeAid to facilitate the submission of applications for call for proposals.

This manual will help you to apply on-line for a published call for proposals. It gives a functional description of the e-Calls PROSPECT application, i.e. technical features and functionalities and step-by-step procedures for system access and use.

The manual contains all essential information for applicants to make full use of the e-Calls PROSPECT application. Nevertheless, the information it contains is **for guidance only** and does not replace legal documents.

The Guidelines for Applicants for each specific call are the legally binding document for the corresponding call for proposals.

If you need additional information on EU contracting procedures for external aid please refer to the Practical Guide, which is available at the following link:

Column	Description

Apply (FA)	This column is displayed only for applications that are in status Accepted CN (i.e., for which the Concept Note has been accepted). By clicking on this link, a draft is created of the full application corresponding to the Concept Note.
Deadline	This is the deadline submitting a concept note / full application to the respective call / lot, in format DD/MM/YYYY. Calls are sorted in the ascending order of their deadline.
Call	This column displays the call reference as well as the lot number, if the call has lots.
Lead applicant	This column displays the name of the organisation that submitted the application. This organisation is also specified in the Applicant tab of the application.
Title of the action	This is a link to the Overview tab of the organisation. If the action title is not yet defined, 'N/A' is displayed.
N°	This is the application number. It is an identifier inside a call or within the lot (if the call has lots). The number is assigned at the time of the application submission. Draft applications have no number.
Action location(s)	This is the action location of the application, as defined in the project tab.
Status	This column displays the current status of the application.
Letter	At the finalisation of each step, applicants are notified that there is a new letter. A tooltip on the letter icon shows whether this is a "Concept note letter", a "Full application letter", or an "Eligibility letter". For each letter, an icon allows you to download it. An "unread letter" icon distinguishes unread letters from the read ones. Also, rows corresponding to unread letters are in bold. Please note that the notification e-mail is always sent to the Contact person, and to the organisation in Cc.

 Please note that by default, the table only displays the applications for which you have submit or edit rights (including the ones that you have created and therefore for which you are the owner), and that concern ongoing calls.

You can set for e-Calls PROSPECT to also display the applications for which you have view-only rights, and/or to applications for completed calls:

3.2.2.2 Submitting a Full Application for a Restricted Call

If your *Concept Note (CN)* is pre-selected, you will be invited to submit a *Full Application (FA)*.

The lead applicants will be informed in writing of the Contracting Authority's decision concerning their application. This letter will be sent by e-mail and will appear online automatically in the e-Calls PROSPECT profile of the user who submitted the application. The user who submitted the application must check regularly their e-Calls PROSPECT profile, taking into account the indicative timetable of the call. Lead applicants who, in exceptional cases (see section 2.2 of the Guidelines for grant applicants), had to submit their application by post or hand-delivery, will be informed by email or by post if they did not provide any e-mail address. The Contracting Authority cannot be held responsible for non-delivered emails due to issues with the reliability of e-mail providers.

In the **e-Calls PROSPECT**, go to **"My Applications"**, and then click on the title of your application in order to fill in the requested fields.

The reference number of the application for which you are requested to send a **FA** is mentioned in your **CN** acceptance letter.

The flow of updating the application form is similar to the one for submitting a **CN** – see details in [Chapter 3.2.2.1 - Submitting a Concept Note for a Restricted Call](#) above.

At this point you have to upload the EuropeAid Offline Registration Form in the **"Contact"** or **"Co-applicants"** tab – **if the applicant**, as the co-applicant(s) and/or the affiliated entity(ies) do not already have a EuropeAid ID, or if they did not *already* upload them when submitting the **CN**.

The **"Project"** tab will be adapted automatically:

- **Full Application** – the following document formats are accepted: Word (.doc & .docx), Excel (.xls and .xlsx), PowerPoint (.ppt and .pptx), PDF (.pdf), RTF (.rtf), JPEG (.jpg and .jpeg), text (.txt), TIFF (.tif and .tiff) and ZIP; ZIP files can only contain these previous file types, except for another ZIP file; the maximum file size allowed is 10MB;

4. Manage Application Users

By default, the users who have view access to your applications to calls for proposals in e-Calls PROSPECT are the same as those defined in the e-Calls PADOR profile of your organisation. For more information, please refer to the [e-Calls PADOR Manual for Applicants](#).

You can view and edit (if required), the users who have access to an individual application, as well as their permissions, in the "**User List**" tab of the application.

This application has not yet been submitted (581 days remaining before submission deadline).
 To see who can submit, edit or view this application go to the tab "User list"

In this page you can manage which people in your organisation can have access to the application.

The users in these lists who have the right to submit or edit the application will receive automatic notifications about this application.

Application form owner

The application form owner is the person that created the application form, and always has submit, edit and view right.

To change the owner you must contact PROSPECT IT support.

Add user

This page displays the user list as defined in e-Calls PADOR, or as previously entered in e-Calls PROSPECT (depending on the case), divided into sections according to their role as described below.

Each user section displays a table, showing the name, e-mail address, as well as the permissions columns (submit, edit, and view).

4.1 Application form owner

The application form owner is the person who created the application form – the user who clicked on the "Apply" button. They have the right to submit, edit, and view the application by default. This user and their accesses cannot be removed nor edited in the e-Calls PROSPECT system.

If you need to change the owner or the data related to this person, please contact e-Calls PROSPECT IT Support (by using the "Online Support" option in the left main menu).

4.2 Organisation users

The list of organisation users is imported from the "User List" of the e-Calls PADOR profile of the organisation. All the users in this list have by default the right to view the application, and it cannot be removed. You can choose which of them, if any, should also have the right to edit or submit the application by ticking the corresponding boxes. The right to submit automatically grants the user the right to edit the application, but you can choose to allow the user only editing permissions.

Organisation users

The table below lists the people identified in the lead applicant [PADOR](#) user list. The owner of this application (User TWO) will only see this list if he/she belongs to the lead applicant PADOR user list.

Please note that if you wish for one or several of these users to **not have the ability to view** the application, you have to remove them from the user list of the e-Calls PADOR profile of the organisation ([>> connect to e-Calls PADOR](#)).

4.3 Ad-hoc users

This section of the users' list allows you to add ad-hoc (emergency) users for the **current application only**.

These users will not be added to the e-Calls PADOR profile of the organisation, and will have no access to other applications that the organisation manages.

To add an ad-hoc user, click on the "Add user" button. A pop-up window will request you to enter the e-mail address of the user you wish to grant access to the respective application.

The right to view the application is granted by default when you add a new user and it cannot be removed (if you wish to remove the view right for a user, you have to delete the respective user from the list).

You can define (if required) the user permissions so that each user may have the ability to edit and/or submit the current application.

Click on "OK" button to confirm.

The user is then added to the ad-hoc list.
