By the Beautiful Blue Danube

Discover alternative transport routings using the European waterways and railways instead of road networks for increased efficiency and lower the CO2 emissions.

[Learn more](#)

Commuting 2.0

Make planning the day-to-day commuting safer and more pleasant for pedestrians, cyclers and other light traffic users using weather, air quality and road condition data.

[Learn more](#)

Let's make the most out of INSPIRE!

Figure out ways to improve how data is being delivered and encoded in particular use cases (e.g. building a cross-border dataset, or using a specific dataset in a particular software product).
