#### About the attendence

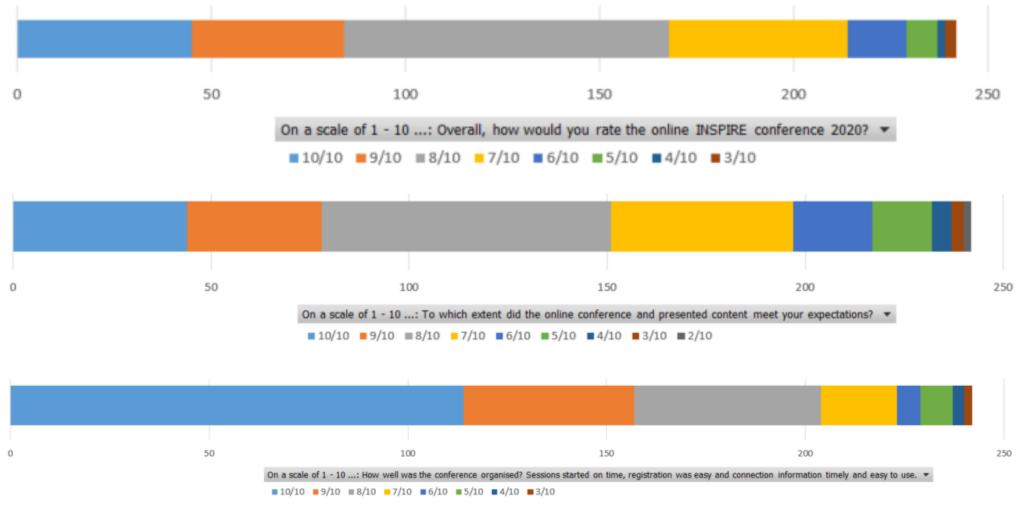

#### Other reasons to join the conference

- Because it was a \_virtual\_ conference :-)
- It was open to all and available online (I would not have attended otherwise), and for a couple of specific sessions relating to my area of interest.
- I wanted to find use cases and practical information regarding INSPIRE implementation.
- Hear about INSPIRE webinars from my project manager
- Keep up to date and see where european strategies are pointing to.
- online session made it easy to join
- It is a great opportunity to get an overview of all things INSPIRE from user cases, to overall trends.
- For the virtual side. Easier to follow some sessions than to go abroad for one week
- To get up to date about current developments in INSPIRE
