

Session 5 Q#1 - Select the three proposals that you think should be implemented in the Geoportal

(1/2)

INSPIRE analytics (resource browser 2.0)

English metadata translation

Making the geoportal resources indexable by search engines

Add a map viewer (WebGIS)

Add monitoring information

Session 5 - Geoportal user interface (1/2)

0 2 8

Session 5 Q#1 - Select the three proposals that you think should be implemented in the Geoportal

(2/2)

Layer style selector (View services)

 11 %

Session 5 Q#2 - Do you have another suggestion for improving the Geoportal?

- Have more results by page
- filtering for harmonized/unharmonized data
- Filter selection
- Not translation, but displaying alternative languages included in the national metadata
- filtering for harmonized/unharmonized data
- Support for metadata in all European languages
- search field (drop down list or free text field)
- Index of metadata according to responsible organisations.
