

# MIG mini-workshop Future of INSPIRE

13th Meeting of the MIG

*18 June 2021, online meeting*

# Participation

- 14 countries participated to the survey

Portugal – Belgium – Poland – Sweden – Germany – Netherlands - Slovenia

Slovak Republic – Czechia – Denmark – Spain – Greece – Croatia - Austria

**Many thanks for your contribution!**

# Would you agree that a revision of the INSPIRE Directive and/or its implementing acts is needed?

The recommendations below were gathered over the past 4 years in “what if ...” and “future of INSPIRE” workshops. Could you indicate how important it is for you to take these recommendations into account in a possible revision of the INSPIRE Direct

Remaining implementation gaps in Member States need to be closed to optimise the reuse of spatial data and facilitate its pan-European use.

The recommendations below were gathered over the past 4 years in “what if ...” and “future of INSPIRE” workshops. Could you indicate how important it is for you to take these recommendations into account in a possible revision of the INSPIRE Direct

New data sources should be included (3D, linked data, sensor data ...) beyond the current spatial data scope.

The recommendations below were gathered over the past 4 years in “what if ...” and “future of INSPIRE” workshops. Could you indicate how important it is for you to take these recommendations into account in a possible revision of the INSPIRE Direct

The further implementation (data and services availability, accessibility and interoperability) of the INSPIRE Directive should be driven by a common demand across administrative levels and use cases.

The recommendations below were gathered over the past 4 years in “what if ...” and “future of INSPIRE” workshops. Could you indicate how important it is for you to take these recommendations into account in a possible revision of the INSPIRE Direct

The legal implementation framework should be technology neutral.  
Implementers should have the option to deploy off-the-shelf tools.

# To what degree would you agree to the following statement:

“The overall objective of the revision of the INSPIRE Directive is to unlock its full potential in the context of the European Strategy for data as an enabler for the European Green Deal. The full benefits of data sharing should support data-driven innova

## To what degree would you agree to the following statement:

“The revision of the INSPIRE Directive is an important initiative for strengthening the legal and technical interoperability of data across the Common European Data Spaces, including the European Green Deal data space.”

## To what degree would you agree to the following statement:

“The legal framework should be aligned with more recent and emerging data legislation under the European strategy for data, such as the data reuse provisions of the Open Data Directive, the related initiative for an Implementing Act on High Value Datasets

## To what degree would you agree to the following statement:

“A revision of the INSPIRE Directive should modernise the data regime in line with technological and innovation opportunities, making it easier for EU public authorities, businesses and citizens to share, access and use data to develop data-based solution

# To what degree would you agree to the following statement:

“The INSPIRE Directive should be strengthened by extending the current data scope of the INSPIRE Directive to also include non-spatial data and applying a linked data approach to associate spatial and non-spatial data.”

# Break-out sessions (30')

- Room 1 – Michael Lutz / Room 2 – Vlado Cetl / Room 3 – Joeri Robbrecht
- You will be automatically assigned to a break-out group and will automatically rejoin the main meeting after the break out session is closed.
- Main topics for discussion
  - Do you have comments or reflections on the back ground document e.g. the problem statement?
  - Any specific thoughts on the survey questions and outcome that you want to share,
  - Are there other directions in which you would like the INSPIRE Directive to evolve that have not been addressed in the survey or the background document?

# Thank you
