

# Release note

eProcurement  
eContracting

European Commission - Directorate General for Informatics Directorate A - Digital Transformation

Release date 02.08.2023

The new release introduces the following improvements:

Project Legal Signatory assignment .....	1
Deliverables size.....	1

## Project Legal Signatory (PLSIGN) assignment

The specific contract can be signed only by a person having the roles LSIGN (Legal Signatory) for the organisation and PLSIGN (Project Legal Signatory) for the specific contract. Until now the Primary Coordinator Contact (PCoCo) or Coordinator Contact (CoCo) had to assign the PLSIGN role in each specific contract. This has now changed - all persons having the LSIGN for the organisation automatically get the PLSIGN role for each specific contract of the FWCs of their organisation (FWCs for which their organisation is the leader if the contractor is a consortium).

## Deliverables size

If you are required to submit the deliverables of your specific contract through F&T Portal (section *Continuous Reporting* under *Manage contract* in *My Contracts*), you can now benefit from increased size per submitted file – 300mb (instead of 50mb previously). Please note that you may attach only one file per deliverable.
