

Subgroup digitalization

Feedback, plans, questions & decision

1. Looking back
2. Plans
3. Questions
4. Decision

Arjen Boersma
Manager CIO Office ProRail
Chair subgroup digitalization

- Looking back
- Almost 1 year without chair
- Lots of initiatives at IM's and RU's, bilateral contacts
- New energy, with focus

Looking ahead

- Likely that digitalization will change the way we work, extreme impact on our business.
 - Key question is how to facilitate this
1. **Subgroup will work on** a limited themes, focused on addressing the impact of digitalization on IM's
 2. Make an overview of all initiatives from rail institutions in Europe on digitalization
 3. Make an overview of projects of IM's on digitalization (innovation catalogue)
 4. Work on 3 specific themes: BIM, Cyber security and Predictive Maintenance algorithms

- Questions?
- What guidance would you give the subgroup?
- Decide on themes and focus as proposed
