### **Annex to item 7 Information points: Handbook International Contingency Management**

*From: EC*

***– For Information –***

#### **1. BACKGROUND**

Since the 2<sup>nd</sup> meeting on Contingency Management which took place in March 2018 the international handbook for contingency management has been endorsed by PRIME Plenary and RNE general assembly and published.

To exchange on the implementation, progress and practical relevance as well as further topics to tackle related to international contingency management the handbook foresees a revision clause for June 2019. The meeting will again be hosted by the European Commission. During this meeting open points will be discussed as well as the steps taken by railway undertakings to act and cooperate in a contingency case. For a detailed insight into the meeting topics please see the below agenda.
