Through their respective roles and specific tasks, the expert groups shall provide the Commission with advice and expertise in the policy areas that they cover, and they shall be part of a governance structure that shall coordinate the work and steer the development of the strategic framework, within the overarching objective of achieving and further developing the European Education Area (EEA).

As part of the strategic framework for European cooperation in education and training towards the European Education Area and beyond (2021-2030), their overall work shall reflect the vision, milestones and specific initiatives set forth in the EEA Communication and the priority areas, issues and actions of the Council Resolution, with each working group addressing concrete policy issues and actions, in line with their specific objectives detailed in annexes to their Terms of Reference.

Working Group on Adult Learning

Title	Adult learning - opening up opportunities for all
Duration of mandate	2021-2025 ¹⁰
Coordinating Unit(s)	EMPL.B.2. – Skills Agenda

OBJECTIVE

The main objective of the Working Group is to enable technical exchanges and contributions to support countries implement the actions of the 2020 Skills Agenda that has as its mission re- and upskilling adults and empowering them to continuing learning throughout their lives; and to support capacity building to achieve implementation of the 2016 Council Recommendation on Upskilling Pathways: New Opportunities for Adults. The Working Group will also contribute to the development and implementation of the priorities for action to be presented in the forthcoming Council Resolution on adult learning¹². (November 2021).

The work is in line with the European Pillar of Social Rights Action Plan, which was welcomed by Heads of State and Government at the Porto Summit and sets the target that 60% of working age adults should participate in learning annually by 2030, scaling up the 2025 target agreed by the Education Council in February 2021. The work is fully in line with the Council Resolution on a strategic framework for European cooperation in education and training towards the European Education Area and beyond (2021-2030). The working group will take a holistic approach to adult learning, with the aim to cover all the adult population and all types of skills, with the view to support adults to thrive in the labour market and in society.

The working group will build on the results of the ET2020 Working Group¹³, including its stock-taking exercise, as well as taking into account the reskilling and upskilling needs highlighted by the COVID-19 pandemic¹⁴. With the view to complementing ongoing work, the Working Group will focus on the following priority fields of work:

- National skills strategies: "Whole-of-government" national skills strategies are key to
 ensuring a holistic approach to adult learning, encompassing not only education and training
 and employment, but also aligned across all relevant policy fields, such as regional
 development, social inclusion and migration, to name just a few.
- Skills for Life: Opening up learning environments is key to reach out to all, including

The Working Groups will run until 2025, throughout the first cycle of the strategic framework, along broader objectives that can be reviewed and updated, if needed to reflect emerging policy needs, including during the stocktaking exercise foreseen in 2022 as part of the European Education Area Progress Report. Concrete outputs to support Member States in their national reforms and contribute to the achievement of the European Education Area will be further defined in the work plan of respective Working Groups.

For some of the specific outputs and peer learning events identified below, Member State representatives may be invited to take the lead, if appropriate.

seniors and in particular those most in need of access to learning, e.g. adults eligible for Upskilling Pathways. It also helps them develop skills for life, including green and digital skills, and media, consumer, financial, environmental and health literacy. All relevant actors and learning environments need to be mobilised to reach out to all ages and diverse target groups.

• **Financing of adult learning**: To ensure both adequate supply and take-up of learning opportunities, sufficient and well-designed funding needs to be in place. Members States' innovative funding partnerships to unlock investment could serve as examples of good practices to be explored.

The Working Group should support technical exchanges among experts in order to:

- i) **help implement the objectives, priorities and principles** included in the European Skills Agenda, the European Pillar of Social Rights Action Plan, the Council Recommendation on VET, the Council Recommendation on Upskilling Pathways: New Opportunities for Adults, EEA Council Resolution and the forthcoming Council Resolution on adult learning.
- ii) **promote mutual learning** on whole-of-government, comprehensive strategies for adult learning. This would mean collecting, exchanging, assessing and disseminating experience on the three priority fields for work mentioned above.

The Working Group should not duplicate the work of other Working Groups, past or present and should inform and receive information from all other Working Groups, as relevant.

The fact that some upcoming initiatives are mentioned in these specific objectives, does not anticipate or pre-empt any future decisions on such initiatives, that will be taken at the appropriate level and according to the appropriate procedures.

While implementing the points above, the group will also directly or indirectly contribute to the following horizontal priorities of Annex III of the Council Resolution on a strategic framework for European cooperation in education and training towards the European Education Area and beyond (2021-2030):

☑ 1. Quality, equity, inclusion and success in education and training	
☑ 2. Lifelong learning and mobility	
☑ 3. Teachers and Trainers	
☐ 4. Higher education	
□ 5. Green and digital transitions	

Priority area 1 - Quality, equity, inclusion and success in education and training

- i) Promoting the mastering of key competences, including basic skills, which are a prerequisite to thrive in life, to find or create fulfilling jobs and to become engaged citizens.
- vi) Helping all learners reach a baseline level of proficiency in basic skills¹⁵, with a special focus on groups at risk of underachievement, including identifying effective policy reforms to support better achievement in basic skills, specifically concerning curriculum and/or assessment, as well as the capacity of institutions and staff to be innovative and develop their learning approaches and environments.

٠

¹⁵ i.e. skills for the green transition

- vii) Promoting educational/training success strategies at national level in order to foster the successful conclusion of education and training pathways by all learners and to reduce low-achievement, by supporting a whole-institution approach with an overall inclusive learner-centred vision of education and training.
- xii) Promoting civic, intercultural, and social competences, mutual understanding and respect, and ownership of democratic values and fundamental rights at all levels and types of education and training.
- xv) Fostering sustainable investment in quality and inclusive education and training.

Priority area 2 - Lifelong learning and mobility

- i) Relaunching and continuing lifelong learning strategies and addressing the transition phases within education and training, while promoting, through high-quality career guidance, transitions to and between vocational education and training, higher education and adult learning, including nonformal and informal learning, and from education and training to work.
- ii) Making lifelong learning strategies more robust and inclusive in order to allow those who have left early to re-enter education in flexible forms through life, and those who need it to be able to access higher education and VET programmes to update or acquire skills (upskilling and reskilling) that the jobs of tomorrow require, at all stages of life.
- iii) Ensuring that education and training systems, including adult learning systems support all learners in accessing a changing labour market and in contributing to their personal development, become more agile, resilient, futureproof, attractive and tailored to the green and digital transitions, should provide upskilling and updating training opportunities throughout the working life, and should strengthen the cooperation with other stakeholders, such as companies or other workplaces.
- v) Strengthening the key role of higher education and VET systems in supporting lifelong learning and reaching out to a more diverse student body. Exploring the concept and use of microcredentials can help widen learning opportunities and could strengthen the role of higher education and VET in lifelong learning by providing more flexible and modular learning opportunities, and offering more inclusive learning paths.
- vi) Updating of the renewed European agenda for adult learning.
- vii) Promoting the freedom for learners, teachers and trainers, and other education and training staff, to be mobile and for institutions to freely associate with one another in Europe and beyond, through learning mobility and cooperation across borders. Further efforts must be made to remove existing obstacles and barriers to all types of learning and teaching mobility, including issues related to access, guidance, student services and recognition.
- viii) Updating the learning mobility framework accompanying the strengthened Erasmus+ programme to enable mobility opportunities for a much wider variety of participants, foster green and digital mobility, including by blending online and physical exchanges, and to encourage balanced mobility.

Priority area 3 - Teachers and Trainers

- iv) Explore the possibility of developing policy tools [...] to increase relevance of initial teacher education programmes as well as development of continuous professional development opportunities and to provide guidance for teachers in their career progression.
- v) Supporting initial education, induction and continuous professional development at all levels, especially to deal with the increased diversity of learners and their specific needs, to tackle early leaving from education and training to promote work-based learning, supporting the development of basic and advanced digital competences and innovative pedagogies, including ensuring that teacher education addresses teachers' competences to teach in digital environments.

xii) Ensuring that teacher and trainer education and training programmes also prepare teachers and trainers at all levels and types of education and training programmes for their key role in equipping learners with the competences to live, work, and act towards sustainable development and in enhancing well-being and mental health for all learners.

Priority area 5: Green and Digital transition

- i) Boosting availability, access, and quality of digital equipment and infrastructure, connectivity, open and digital educational resources and pedagogies at all education and training levels to support education and training systems in adapting to the digital era.
- ii) Addressing the development of basic and advanced digital skills and competences at all levels and types of education and training (formal, non-formal and informal) and also traditional, blended and distance teaching and learning, in order to face and reply to the technological and digital transformation of economy and society
- v) Promoting environmental sustainability perspectives across education and training curricula, at all levels of education and within an inter-disciplinary approach, and promoting educational concepts, such as Education for Sustainable Development and Global Citizenship Education, in order to empower citizens to contribute to sustainable development.
