

# DG AGRI Process for IACS data sharing under INSPIRE

63rd MIG Expert group meeting – 14 October 2020

DG AGRI | D.3      Implementation Support and IACS

# Outline

- Context, background information
- DG AGRI process
- Achievements
- Next: publication of metadata by all the MS

# AGRI D3?

## DIRECTORATE-GENERAL FOR AGRICULTURE AND RURAL DEVELOPMENT

Direction D - Sustainability and income support

(...) by supporting and monitoring Member States' implementation of direct support schemes, in particular as far as the Integrated Administration and Control System ([IACS](#)), including LPIS, is concerned (...)

### Unit D3 - Implementation support and IACS

- ensure the establishment and follow-up of the [IACS legislative framework](#)
- support the Member States in their [implementation](#) of the direct payments schemes as regards IACS (including dissemination of best practices)
- ensure that [action](#) is taken if [implementation is lacking](#), (including LPIS QA).

Director-General

HR Business Correspondent

+ scientific & technical support from JRC

Concretely: Assistance (visit to MS), Missions (LPIS QA, area monitoring system...), Technical guidelines, Conferences (MARS...), Workshops (LPIS QA, IACS...), Trainings, Services (Satellite imagery...)

# IACS?

Under the CAP → MS implementation of a system for CAP management

[https://ec.europa.eu/info/food-farming-fisheries/key-policies/common-agricultural-policy/cap-glance\\_en#thecapinpractice](https://ec.europa.eu/info/food-farming-fisheries/key-policies/common-agricultural-policy/cap-glance_en#thecapinpractice)

→ Illustration by Estonia and Spain (Catalunia) during the meeting

## Article 68

### Elements of the integrated system

1. The integrated system shall comprise the following elements:

- (a) a computerised database;
- (b) an identification system for agricultural parcels;
- (c) a system for the identification and registration of payment entitlements;
- (d) aid applications and payment claims;
- (e) an integrated control system;
- (f) a single system to record the identity of each beneficiary of the support referred to in Article 67(2) who submits an aid application or a payment claim.

LPIS data
Reference parcel boundaries
Maximum eligible area
Land Cover Classification (AL, PC, PG)
Stable Ecological Focus Areas (EFA-layer: terraces, buffer strips, agro-forestry, short rotation coppice, ...)
Other landscape elements
RD agri-environment-climate measures
Other area-related information (relevant for eligibility e.g. Natura 2000, WFD, ANC, ...)
Eligibility profile (as described in LPIS QA)

GSAA data
Agricultural parcels boundaries and areas
Data on individual arable crops (by crop group as defined by MS or by crop if this is relevant at MS/region level)
Data on individual permanent crops (by crop group as defined by MS or by crop if this is relevant at MS/region level)
Permanent grassland (geo-localised)
Uses on arable land (for crop diversification; >10ha)
Individual Ecological Focus Areas
Area-related rural development commitments

### Other:

Not (necessarily) under IACS

but collected/managed by Public administration

- Organic farming
- Natura 2000
- Register of animals
- Register of vineyards
- Etc.

# Context (policy)

## **Green deal**

→ **farm to fork**

(but also biodiversity, zero pollution, greendata4all...)

## **Europe fit for digital age**

→ **digital and data strategies**

(EU common data spaces)

# DG AGRI process for IACS data sharing

Implementation support to the MS for IACS data sharing in the context of INSPIRE: “dg agri process” for data sharing

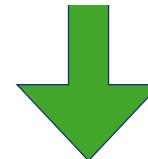

AGRI D3 - Implementation support and IACS

→ Current and future CAP

→ EU policy (Environment and digital)

→ Internal Audit Service IAS

In collaboration with EC services and  
 Member States (coordination bodies  
and paying agencies)

*common understanding of the legal context (CAP, INSPIRE, GDPR) and  
actual implementation in the geoportal*

## “DG AGRI process” for IACS non-personal spatial data sharing

Efficient access to data  
(INSPIRE)

&

Effective re-use and added value of data  
(case and feasibility study)

Organic farming

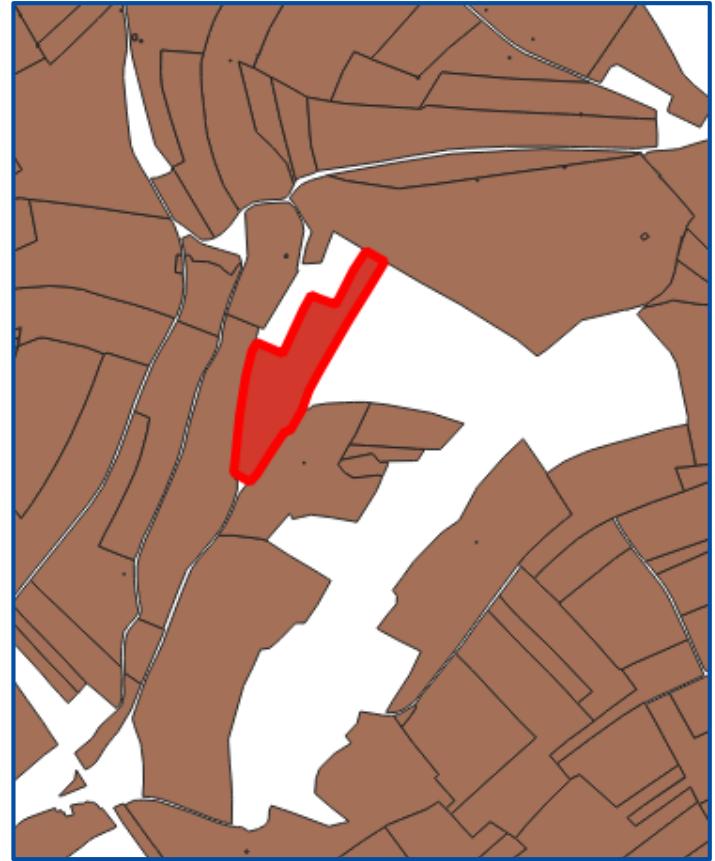

# Mapping results – What type of proposed ‘services’?

The screenshot shows the geoportal.lt web application interface. The top navigation bar includes 'geoportal.lt' and 'english'. The main search bar has 'Jveskite paieškos fraze' and a magnifying glass icon. Below it are dropdown menus for 'Žemėlapio turinys' and 'Viešosios paslaugos'. On the left, there's a sidebar with 'Duomenų paieška' (Search for data) and 'PODAKTI' tab selected. The main map view shows a green field with a brown polygon highlighted. A data table on the right provides details about the identified object:

OBJECTID	791440
Shape	Polygon
TOP_ID	1722567B-A680-4676-AC07-7500B53F1FC5
GKODAS	ms0
GRAKTAS	
VARDAS	
META	33
RED_PRIEZASTIS	NUOLATINIS

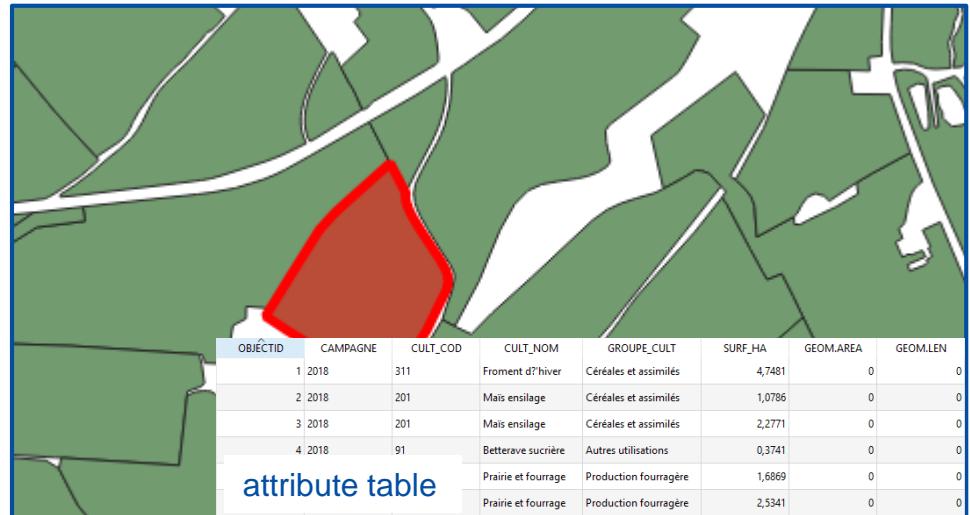

The bottom section features a large blue button labeled 'Discovery (LT)'.

**Interactivity (SI)**

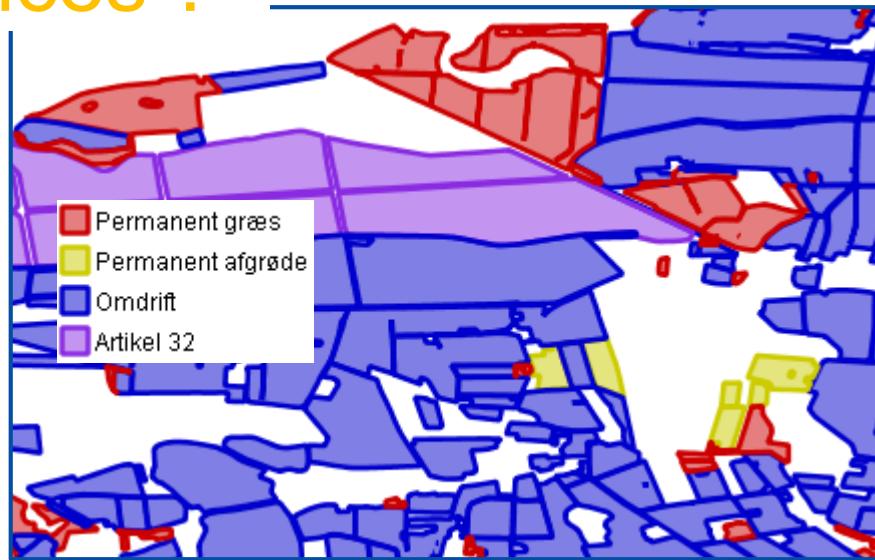

**.shp (LU) – (GIS software)**

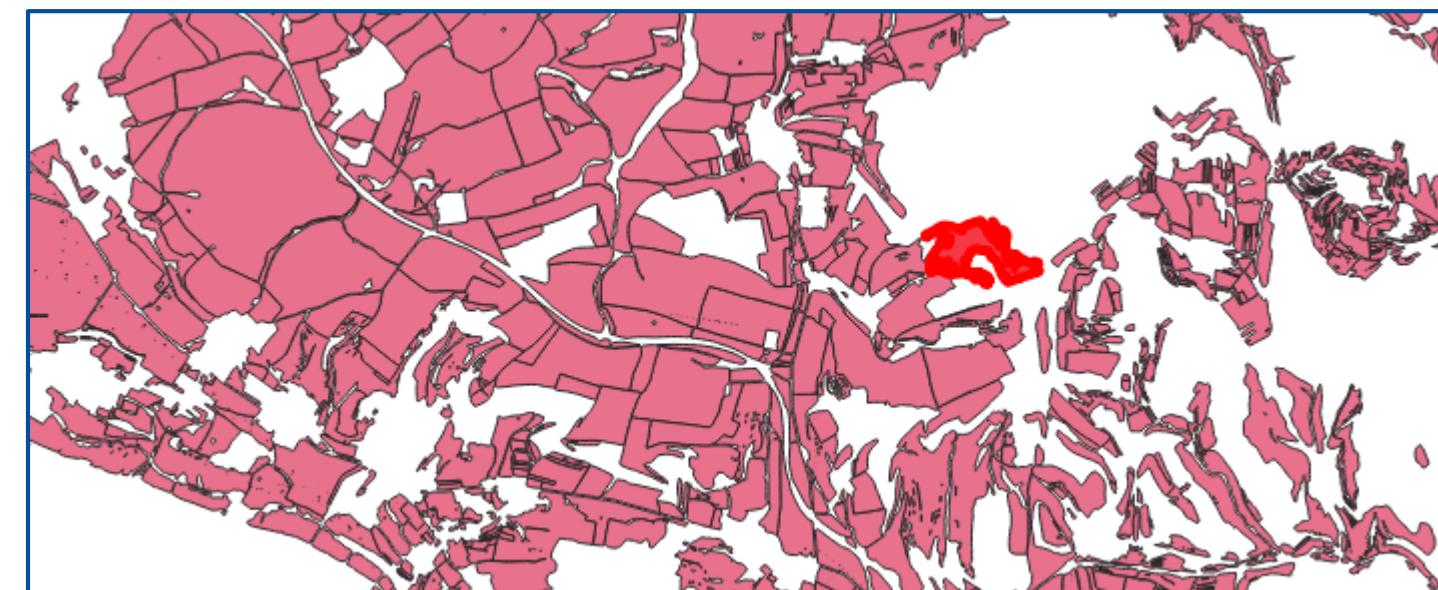

# Mapping results – What type of proposed ‘services’?

WFS  
(BE-WA) –  
WebFeatureS  
ervice = URL  
supported by  
GIS  
software

- Fodder crop

GML (SK) – GeographyMarkupLanguage = XML like  
format supported by GIS software

- crops

# AGRI “discovery” tool

# Stage 1: Data Discovery via a webpage

# Implementation by the MS Metadata publication

- Who has/ has not published metadata?
- For the MS who published, check metadata value and/or key words
- In the context of the current process, publication “should be” finalised by June 2021
- EC will continue to support; help of INSPIRE contact point in the country welcome

*Thank you for the collaboration!*

# Thank you
