

# INSPIRE MIWP 2020-2024

## Action 2.1 Need-driven data prioritisation

Stefan Jensen, EEA  
Darja Lihteneger, EEA  
Joeri Robbrecht, EC DG ENV

# Action 2.1 Progress

- Quiet period
- Related to progress of high value data sets
- Planned meeting in March 2022
- Other related activities

# Other related activities

- Regular activities of Green Data Task Force
- INSPIRE Action 2.2 meeting on 07.02.2022
- Reporting obligations (environmental acquis)
  - Alignments between reporting obligations and INSPIRE continue according to the thematic domain timetable
  - Reporting data flows are progressively included in Reportnet3
    - Reporting status of public reporting data flows

**Monitoring and Classification of Bathing Waters (787) - Reporting year 2021**  
Monitoring and Classification of Bathing Waters (787)

**Obligation:** Bathing Water Directive - Monitoring and Classification of Bathing Waters [↗](#)

**Instrument:** New Bathing Water Directive (consolidated) [↗](#)

**Status:** Open **Delivery date:** 2021-12-31

Reporting datasets

Country ↕	Delivery date ↕	Delivery status ↕	Files
Austria <a href="#">↗</a>	2022-01-28 10:55	Technically accepted	<a href="#">📄</a>
Belgium <a href="#">↗</a>	-	Pending	
Croatia <a href="#">↗</a>	2021-12-10 15:26	Technically accepted	<a href="#">📄</a>
Denmark <a href="#">↗</a>	2021-12-14 08:55	Technically accepted	<a href="#">🔒</a>

# Reporting data flows in Reportnet 3

## CDDA – Nationally Designated Areas:

- Annual reporting data flow
- First time reporting in Reportnet3, deadline 15.03.2022
- Reporting option for spatial data: data harvesting of INSPIRE Protected sites spatial data sets (INSPIRE download service)
- <https://cdr.eionet.europa.eu/help/cdda>

### Nationally designated areas (CDDA) - Reporting year 2022

The Nationally designated areas (CDDA) is a European inventory holding information about designated areas and their designation types, which directly or indirectly create protected or other designated areas in Eionet partner countries and territories.

**Obligation:** Nationally designated areas (CDDA) 

**Instrument:** EEA AWP 

**Status:** Open

**Delivery date:** 2022-03-15

## END – Environmental Noise Directive:

- Testing data flows in Reportnet3 test platform: noise sources and strategic noise maps
  - Get to know Reportnet and functionalities
  - Feedback to improve validation (quality control), reporting guidelines
- Guidelines and support material: <https://www.eionet.europa.eu/reportnet/docs/noise>

# Thank you !
