2016.4 Theme specific issues

2016.4 Theme specific issues – update

- Meetings
  - 18/09/2020 teleconference, 27/10/2020 teleconference, upcoming teleconference 30/11/2020
- Summary of the discussion on the future of the Forum (ongoing)
  - The Forum is still needed, but the scope should be modernised considering the new INSPIRE priorities and emerging technological trends. The currently existing technical solution (based on the ELGG web framework) is outdated and difficult to maintain for technical and security reasons.
  - To ensure long term sustainability:
    - Technical and legal questions around INSPIRE will be included in the future common INSPIRE Helpdesk hosted on GitHub
    - Discussions will be migrated to a new platform (e.g. GIS Stack Exchange with the use of INSPIRE-specific tags)
    - The current content of the Community Forum will be archived for future use.
- Newsletter (summer, autumn, winter 2020)

European Commission

INSPIRE Community Forum Webinar

Session 1:

Welcome: *Robert Konrad, DG Environment*

The INSPIRE Community Forum activity in a nutshell: goals and achievements
Lena Hallin-Pihlatie

INSPIRE & Environmental Reporting Stefania Morrone

INSPIRE & Pan European / High Value datasets Stefania Morrone
