

Jargon/ tricky language.

As a general principle **use plain English** when writing for the Commission website. The following lists provide alternatives for

(1) Jargon / unclear names for EU-related concepts

(2) false friends / tricky language usage

Often, the 'EU aspect' of terms related to the Commission's activities is implicit but needs to be made explicit for non-expert audiences: *acquis* vs. *body of EU law*;

We haven't included the numerous Latin expressions that regularly turn up in Commission texts. Avoid them where at all possible.

But one person's jargon is another person's ordinary professional language. So **use the words your target audience does**.
