WP2020-2024
Action 2.1.
Need-driven data prioritisation

European Environment Agency

Action 2.1 scope

Drive the further implementation *(data and services availability, accessibility and interoperability) of the INSPIRE Directive by*

- *A real demand and tangible **use cases** by setting data priorities in line with the*
- ***New political agenda** (e.g. Green Deal, EU Data Strategy, …),*
- ***New or emerging legal frameworks** (e.g. High Value Datasets under the Open Data Directive, EU common data spaces, …) and*
- *Ongoing **prioritisation initiatives** (e.g. the Commission geospatial requirements paper and the activity on priority data for Environmental reporting)*

Synergies with activities and initiatives:

- *European Green Data Task Force*
- *Emerging needs of thematic communities*
- *Leveraging implementation of the INSPIRE priority list of datasets for e-Reporting*

European Environment Agency

Action 2.1 organisational set-up

Lead: EEA, DG ENV

Contributors: JRC, MS, leverage INSPIRE action 2016.5 work, involvement of contact points from thematic communities

Need for specific sub-group – composition:
- **INSPIRE sub-group 2016.5**
- **Contact points** from:
  - Environmental community (EEA Eionet, ENV)
  - Statistical community (ESTAT)
  - Digital community (CNECT)
  - Agricultural community (AGRI)

Data scope:
- Priority datasets for e-Reporting (extended)
- Core reference data
- High Value Datasets
- IACS (Integrated Administration and Control System, CAP) data

European Environment Agency

Action 2.1 - Tasks

Task	Links to activities
1. Prioritisation methodology and processes	
2. Document the data priorities	EGD TF work
3. Manage the list(s) of priority datasets	INSPIRE action 2016.5 merged / renamed into new action 2.1 HVDS, core reference data, IACS EGD TF work on data inventories
4. Monitor implementation and address identified issues, including pilot projects	potential link to EGD TF
5. Process fast-track data requests (ad hoc)	
6. Improve the INSPIRE Geoportal discoverability and visualisation	New INSPIRE action 2.4

INSPIRE 2016.5:
- Meeting in February to address lessons learnt, new work programme, interest, composition
- Helpdesk support for PDS will be integrated in the INSPIRE Helpdesk

European Environment Agency

Purpose:

Effective management of environment and climate data supporting the European Green Deal

Governance:

Environment Knowledge Community (EKC) partnership: DG ENV, CLIMA, RTD, JRC, ESTAT, AGRI (depending on topics DEFIS, MARE, DEVCO, SANTE and ECHO)

DG ENV and EEA as co-chairs

Established in 2020 and continuing Task Forces activities on

Environmental data centres *and*

Interoperability of platforms and catalogues on ecosystem-based initiatives

European Environment Agency

European Green Data Task Force

Generic action areas:

- Governance and data policy check
  - Review general data governance
  - Identify data policy obstacles
  - Proposal for "green data" family governance and data policies
- Green data inventory
  - Review existing "green data" DG inventories
  - Scoping and recommendations for improvement of inventory
  - Implement recommendations
  - Contribute to better facilitation of data access and sharing
- Green data user needs and requirements (based on pilots prioritised by EKC)

Pilots/use cases:

- IACS data sharing (lead DG AGRI)
- Citizen science (lead JRC)
- SDG scoreboard (lead ESTAT)
