  https://github.com/ec-jrc/re3gistry/releases/tag/v2.4.2

Next release:

- Minor release: September 2023 (v2.5.1)

2.5.0 2023/06/30 [Latest]

oruscalleda released this 4 days ago · 25 commits to master since this release ⬡ v2.5.0 ⟲ 3fbc753

Release of version v.2.5.0 of the Re3gistry software with major changes fixing bugs and adding new features.

🚀 New features

#140 Adapt the API and its documentation to the Open API specifications (Swagger)
#178 Webapp: login button
#258 Increase the "session expiring warning" display time

🐛 Bugs

#282 Regular item's child cannot be seen correctly in the backend instance
#283 The application provides an incorrect template
#284 Insert more than one value for a collection field
#287 Translation selector not working
#291 Library upgrades

We've also updated the software documentation, check it out here.

Re3gistry software v2.5.0
