

02. The inter-institutional EU website

The **inter-institutional site** (<https://european-union.europa.eu>) is the official website of the European Union. It is a good starting point if you are looking for information and services provided by the EU but you don't know your way around our sites.

It provides:

- basic information on how the EU works
- links to EU information on the websites of EU institutions and agencies
- EU law
- documents and publications
- the latest EU news and events
- fully multilingual content

Visit <https://european-union.europa.eu> and consult this guide's section about [the EU branded core website](#).

Maintenance

The European Commission's communication department (DG Communication) manages the EU website on behalf of all EU institutions, under the supervision of the [Inter-institutional Online Communication Committee](#) (EU login required).

Contact and support

If you require further assistance, please contact: [Comm Europa Management](#).
