

# 03. Task-mapping

## Background

DG Communication (Unit B3) mapped all DG pages (24,000 Europa web pages) onto the [77 user tasks](#) from June-September 2014. At the same time, each DG identified the tasks it had a stake in plus any additional tasks.

## Purpose

- to discover the relative weights of each task in each DG/between DGs
- to understand the complexity of each task: content-heavy or application-heavy
- an input for future task identification work

## Results

### Tasks by DG and DGs by task (includes \*executive agencies)

Situation in summer 2014 – please note that the information in the reports should be used for reference only because the responsibilities of DGs have changed since the exercise was carried out.

	Directorate-General	Report
AGRI	Agriculture and Rural Development	<a href="#">Report</a> (392 kB)
