

01. How to access the Extranet Confluence Wikis

Follow these steps to access [the Extranet Confluence Wikis](#):

1) Create an EU Login account:

full guide (English version): [EU_Login_Tutorial.pdf](#)

short guide (French version): [EU_Login_Tutorial_short_FR.pdf](#)

Should you get any kind of issues to create your EU Login account, send email to: EU-LOGIN-EXTERNAL-SUPPORT@ec.europa.eu

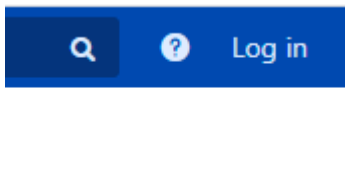

2) Once your account is created, go to: <https://webgate.ec.europa.eu/cas/>

3) Find your userID: go to 'My account', 'My account details' and 'Unique identifier at the Commission (uid)'

=> Remember this userID, it will be required when using the Confluence Wikis

5) Go to the Extranet Confluence homepage: <https://webgate.ec.europa.eu/fpfi/wikis>

6) You should be automatically authenticated (via EU Login). If not, click 'Log in' in the top right corner:

7) Enter your EU Login credentials. You shall see the representation of a person in the top right corner. It means that you are connected:

8) once connected, you can access content (mainly wiki pages) visible by any EU Login users. To get access to a specific wiki space:

- contact and indicate your userID to its wiki administrators, they are in charge of granting access and permissions - you should probably know who they are, assuming they sent to you address of the wiki
- in case you do not know who are the wiki administrators, send an email: EC-HELPDESK-IT@ec.europa.eu by indicating the wiki space address (or name) you need to access and your userID.
