Working Group on Schools Education

This working group aims to promote:

- better achievements in basic skills and the successful conclusion of education and training pathways by all learners;
- education for the green transition;
- enhancing competence and motivation in the education profession.

This working group consists of the two following sub-groups:

Pathways to School Success

Pathways to School Success is a sub-group of the Working Group on School Education

Learning for Sustainability

Learning for Sustainability is a sub-group of the Working Group on School Education
