

# Higher Education Mobility Handbook

The handbook available for download on this page elaborates the novelties of the Erasmus+ programme 2021-2027 in the field of higher education mobility and its objective is to support higher education institutions (HEIs) in the implementation of these novelties. It provides practical information and advice for HEIs and mobility consortia (Erasmus+ grant applicants and beneficiaries), in complement to the [Erasmus+ Programme Guide](#), and has to be read together with this guide.
