

# How to manage the 'My data' basket

- [What is the purpose of the My data basket?](#)
- [Where to find the My data?](#)
- [How to add datasets to My data?](#)
- [How to add bookmarks to My data?](#)
- [For how long do items remain in available in My data?](#)

The following features are not available if the user refused the Data Browser cookies (see [this page](#) for more information).

Also, the user needs to be logged in to access the **My Data** basket.

## What is the purpose of the **My data** basket?

**My data** is a basket available for fast access to datasets and bookmarks.

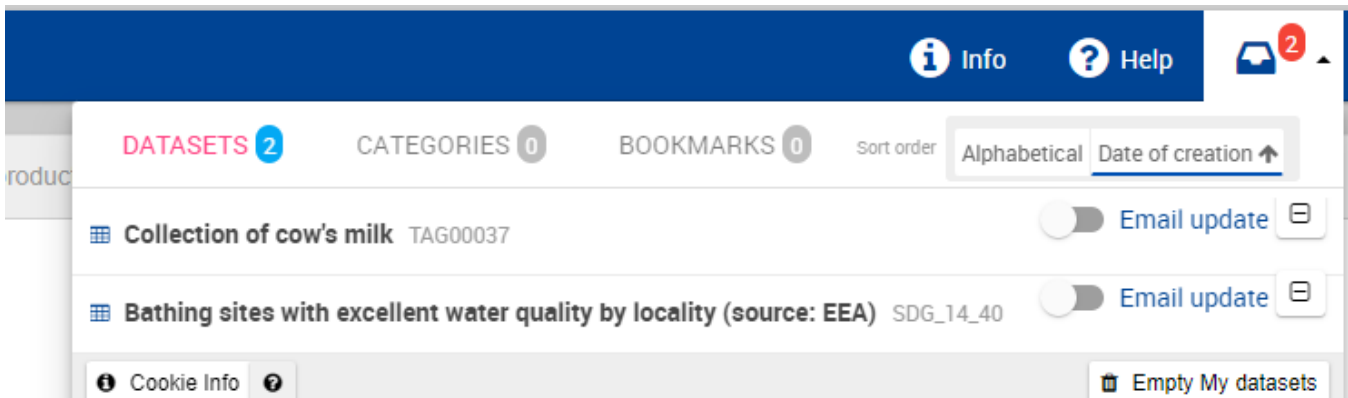

At any moment, datasets can be added to or removed from the basket.

## Where to find the **My data**?

**My data** icon is located on the upmost right side of the menu bar:

Clicking on it will display the contents of the basket. For example:

The following actions are available in **My data**:

- Access a dataset / bookmark view page, by clicking on a dataset / bookmark name.

- Remove the dataset / bookmark from the basket, by clicking on
- Remove all the datasets / bookmarks from the basket, by clicking on the **Empty My datasets** / **Empty My bookmarks**

The count of items in **My data** is displayed at any time:

## How to add datasets to **My data**?

Datasets can be added to the **My data** basket by clicking **Add to 'My datasets'**, located on the right side of the **Information** section.

This action can also be performed in the data results listing of the navigation tree under **ALL DATA**:

European and national indicators for short-term analysis  > Balance of payments 		
 Current account - quarterly data [EL,BPM6CA_Q] [22/02/2023 23:00]		 
 Financial account - quarterly data [EL,BPM6FA_Q] [17/02/2023 23:00]		 
 Current account - monthly data		 

## How to add bookmarks to **My data**?

To save a bookmark with the current dataset and its current view, click on the "Bookmark link" button  in the Visualisation section (see [this page](#)). The bookmark is then created, and it's available in **My Data** menu.

## For how long do items remain available in **My data**?

The list of items in **My data** is kept in a web browser cookie. Using a different browser or device impacts the content of **My data**.

 The availability of **My data** listing may also be impacted by other parameters such as the type of web browser used, web browser settings, etc.
