For 2017 KA135 and 2018 KA125 projects an organisation can be added as a co-beneficiary or as an associated partner. Co-beneficiary organisations may not participate in mobilities unless they have an accreditation as Sending and/or Hosting organisation. Associated partners may not participate in mobilities. Organisations may be added to the project with or without a PIC reference.

2. Organisations as Coordinating, Sending or Hosting partners used for the Mobilities

2.1. Explanation and illustration

Organisations that have an active **Accreditation** for one or all of EVS accreditations (**Coordinating, Sending or Hosting**) can be used in the **Mobilities**.

Information

Organisations with a role as an associated partner can not be used in the Mobilities.

In the example below we added:

- 1. An Organisation is added as co-beneficiary.
- 2. From the organisation details (accessible via the **View** option), the accreditation role and status are indicated. The active **Hosting** accreditation is indicated by a check mark and the period for which the accreditation is valid is displayed.
- 3. When adding a mobility, the organisation can be used as a **Receiving Organisation** as it has a hosting accreditation.
