Indicate the participation as Force Majeure

Force majeure is defined as an unforeseeable exceptional situation or event beyond the individual participant's control. It is not attributed to error nor negligence on their part, but these situations can arise at any time including factors such as sudden disease, accidents, death, earthquakes and other causes.

The **Force Majeure** drop-down is available in the **Participant** section of the participation. If you set it to **Yes**, the comment field **Force Majeure Explanations** must be completed with the justifications for indicating the participation as Force Majeure.

Note: Force Majeure does not affect the sending of the participant report. The participant, even if unavailable, will receive the system notification regarding the Participant Report to be filled in at the end of the activity.
