

Force majeure

Force majeure is:

An unforeseeable exceptional situation or event beyond the participant's control and not attributable to error or negligence on their part.

Source: Erasmus+/European Solidarity Corps programme guides 2024, Glossary

Force majeure situations can arise anywhere and at any time, and include factors such as sudden disease, accidents, death, earthquakes and other causes.

In a project, check the **Force majeure flag** to indicate that a project activity (i.e. mobility activity, group activity, participations, events, transnational project meetings, etc.) is considered as a case of force majeure.

When you check this flag (tick box), certain fields and grants for the activity may be affected and must be checked and/or updated.

In addition, you must fill in the additional **Force majeure explanations** field, describing the facts that prove the activity should be accepted as a case of force majeure.

See the specific activity pages for details.
